

e-Invoicing? We'll manage it for you.

Since the implementation of e-Invoicing in Malaysia, businesses are required to adapt to the new compliance requirements from technical readiness to maintaining accuracy in submissions.

In this complimentary webinar, businesses can gain insights into current issues and updates on e-Invoicing. Learn more about BDO's middleware "Managed Model" - an efficient e-Invoicing solution designed specifically for businesses with lower volumes of invoices.

Ensure your firm stays compliant and ahead of these changes.
