

Driving Smarter Finance Operations with AP & AR Automation

Tuesday
12 May 2026

3:00-5:00pm

In today's fast-paced business environment, efficiency and accuracy in financial processes are crucial. To future-proof your organisation, adopting smarter strategies and leveraging technology are essential.

BDO has a solution that optimises your working capital by streamlining Accounts Payable (AP) and Accounts Receivable (AR) — two key balance sheet drivers.

Learn how to:

- Enhance productivity by automating repetitive tasks
- Improve accuracy of financial data
- Accelerate processes for better cash flow management
- Gain insights with real-time data and analytics to make informed financial decisions
- Optimise business expenditure

Join us in this complimentary webinar to discover how CashVue AP & AR Automation solutions can transform your financial operations.

What You'll Gain

- ▶ Insights into current issues and key benefits of AP and AR automation
- ▶ A detailed overview of automation measures to streamline AP and AR processes
- ▶ Live demo and an opportunity to engage directly with our experts during Q&A
